4. Cat No. H-422 Product Name: H-422 HOOD ASSMBLY W/ INNER SHRD & HRDHT, 70070798155

To whom it may concern,

The 3M H-410, and H-420 model hoods utilize an input material that is white in its construction. Recently we have been notified by the supplier of this material that, for the foreseeable future (currently estimated at 25 weeks), that they will not be able to provide this material in white to 3M during the 2019 novel coronavirus / COVID-19 pandemic. They will instead be producing this material in yellow. We will continue to manufacture these hoods in this new yellow color as this does not affect performance or regulatory claims of these units.

Additionally, each hood package will include a tri lingual insert (English, French, and Spanish) stating the below to help avoid any confusion this color change may create.

Authentic NIOSH-approved 3M™ Hood/Headtop packed inside.

Material colors may vary for units produced during the 2019 novel coronavirus / COVID-19 pandemic. Color does not affect performance of these units.

Current H-410, H-420 shown in white and new yellow

H-420 shown in yellow

Sincerely,

Ismail Mapara,
P&SA Global Business Manager
