

INDICAID™

## INDICAID™ COVID-19 Rapid Antigen Test

The INDICAID™ COVID-19 Rapid Antigen Test is a point-of-care kit designed for the detection of SARS-CoV-2 antigens in direct nasal swab samples.

The test is intended for use by healthcare professionals in symptomatic individuals within 5 days after onset of symptoms.

This product has received **FDA Emergency Use Authorization**.

### Product Advantages

- **Fast:** Results in 20 minutes
- **Simple Sampling:** Self-collected shallow nasal samples
- **Convenient:** No equipment or training needed
- **Bulk Testing:** Easily collect and test multiple samples

### Intuitive Workflow

### Bulk Testing

Intuitive design allows for the concurrent collection of a large number of samples followed by bulk testing of individual samples within 2 hours.

### Clinical Performance

In a prospective US clinical study, INDICAID™ accurately identified 84% of those who were positive (PPA) and 97% of those who were negative (NPA) for SARS-CoV-2.

Product performance against variants of concern are evaluated on an ongoing basis.

Technical Bulletin available upon request.

### About Us

PHASE Scientific is a high-growth biotech company founded by bioengineers from UCLA. We build tools that empower people by giving them better information about their health.
